Read an invented growth log

What does a small growth table support, and what cannot it tell us?

The complete record

Keep days and centimetres attached to both rows.

Changes from the start

Find the day 0 to day 4 change for A and B.

Another interval

Compare the changes from day 2 to 4.

An unanswered cause

What condition or extra record would you need before explaining the difference?

Keep it, change it or leave it here. Sharing is optional.
