Find a rule in invented words

What pattern can a small set of made-up words support?

Observed pairs

Mark the shared and changed parts in both supplied pairs.

My rule

State a rule no broader than the examples support.

A prediction

Use the new one-star label to predict a two-star label.

An unknown case

What further card would separate a pair rule from a general plural rule?

Keep it, change it or leave it here. Sharing is optional.
